DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species:

- I. Claims 2-8, 18 and 21, drawn to a liquid crystal display having a projection-based backlight system wherein the polarizing means comprises a polarization conversion element configured to receive the light beam from the light source and convert the light beam into a polarized light beam (Fig. 2)
- II. Claims 9-11 and 19, drawn to a liquid crystal display having a projection-based backlight system wherein the polarizing means comprises an integrating sphere having an entrance aperture and an exit aperture defined thereon (Fig. 3)
- III. Claims 12-17 and 20, drawn to a liquid crystal display having a projection based backlight system wherein the polarizing means comprises a polarizing beam splitter for separating input light into S-polarized light and P-polarized light (Fig. 4)

The species are independent or distinct because the inventions as claimed have a materially different design and mode of operation. See MPEP § 806.05(j).

Furthermore the inventions as claimed do not encompass overlapping subject matter and there is nothing of record to show them to be obvious variants.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 appears generic to all species.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
